

Mark Teale

Parent Governor

I have a son currently attending the school and my daughter left in July 2017.

I have been a Secondary School Science teacher for the last 15 years so have a wealth of experience in the education system. Prior to teaching I worked as an engineer in the oil industry and a project manager in the IT industry.

In my spare time I enjoy running, cycling and spending time with my family.

My children have always loved Holywell Village First School and I feel I can make a valuable contribution to the continued success of the school.
